Time frame ref in complaint	Weather Conditions	Wind I or Webb	Comment/Issue
			Update on wind turbine study.
			Update on wind turbine study.
			Update on wind turbine design/construction.
			Notice of construction of wind turbine.
			Attached op-ed on medical problems associated with installation of wind turbines. Cites law in Vermont and medical studies that recommends wind turbines shouldn't be within 1.25 miles of residence.
			Update on wind turbine construction and planning for second turbine.
			Cites attached Vermont law on wind turbine siting and night noise guidelines for Europe.
			Sympathizes with Mr. Andersen's noise problems. Explains the Town is looking into what is causing the noise and will address mitigation after sound studies are complete.
			Never very loud, but takes issue with constant noise.
			Warns of upcoming lawsuit
			Objects to sound.
			Complains of lack of sleep. Unsatisfied with idea of sound proofing home.
			Complains about noise impacts. Claims low frequency sounds have had impacts on health. Demands some form of mitigation.
			Details health/visual impacts from wind turbine. Describes sleep deprivation, extreme anxiety and weight loss. Suggests converting to solar solution.
			Complains about various impacts from noise.
			Upset with noise. Concerned that some who have logged noise have been ignored by Town. Concerned about the noise. Was intimidated/treated poorly when they spoke critically of the turbine zoning process.
			Woken up at night due to wind turbine. Wants to know what mitigation the Town is planning.
			Upset with noise. Does not feel previous review process discussed noise impacts. Concerned for high school turbine to be installed. Requests solution/mitigation. Concerned with property values.
			Complains of noise. Wants to know if there are any noise studies being done. What does the Town plan to do?
			Upset with noise from turbine. Notes contrast between quiet Hull turbine and Falmouth's turbine. Wants number to make calls and register complaints.
			Upset with noise, has written to selectmen, and state reps and senators. Has specific complaints for 5/17/10 afternoon.
			Reminds him of Vietnam.

Wind I

Asks for standardized form to detail sound complaint. Notes improvements from interim measure to gear turbine down to 10 MPH. Concerned for Webb Turbine impacts. Noise impacts affecting sleep. Wants answers to previous questions sent to Energy Committee.

Represents home owners disturbed by wind turbine noise, suggests a joint sound study rather than two separate studies.

Lists health impacts from turbine.

Expresses opposition to Wind Energy Siting Reform Act to Falmouth BOS.

Requests the BOH to set standards for setbacks from residences and maximum noise levels. Describes health effects from noise impacts.

Upset with lack of response, has reached out to all state representatives as well as Senate President.

Describes late night noise impacts.

Attached request for study of Public Health impacts due to Wind Turbine. Cites studies that link various health concerns with wind turbine impacts.

Outlines wind turbine's effect on Ms. Eddy's sleep patterns.

Details health impacts from wind turbine syndrome.

Request home should be included in wind turbine sound monitoring study. Requests study be done in fall/winter when leaves are off the trees.

Current condition of wind turbine: "screaming"

Complained that sound barrier suggestion was dismissed at 6/27 CIWIN meeting.

Requests Fall 2009 letters inviting comment on the installation of wind turbines as well as distribution list.

Finds the noise impacts unbearable. Includes noise log.

Complains of lack of response to 5/28 letter, requests a spot on agenda of next BOH meeting.

In letter to DPH Commissioner, complains of health impacts and demands that wind turbines be sited no less than 1 mile from residences.

Complains that not every house has been notified, followed by sound log.

Sound Study Update sent to DL

Concerned that Town will assume that residences have no impacts if log sheet is not turned in. Concerned that people away from their homes will be missed in the log. Does not feel current study captures total impact.

Responds to Mark Cool email.

Steady noise complaints, claims Town ignored noise impacts in original siting process, plans to apply for property tax abatement and class action lawsuit against Town.

Requests agenda item in BOH meeting for wind turbine issue, plans to request BOH to incorporate regulations for wind turbine speeds.
Complained about knocking sound with every third rotation of blade. Occurred almost all day.

Request for Wind I letters from Fall 2009 and distribution list.
Asks BOH to disregard health complaints related to wind turbine.
Noise from Wind 1 is causing health problems. Must be stopped immediately.
Request for recorded times of speeds of Wind I and Webb.
Also requests date of manufacture of all parts, places of storage for parts and duration of storage.
Question to help with his research paper.
Summer 2010 Falmouth Wind Energy Project Fact Sheet sent to DL
Responds to Noah Hodgett - gives website.
Explains fees for request for public information.
Responds to request for information from Dick Koehler.
Notification to DL that sound study raw data is posted on website
Ruining his wife's life.
Noise from turbine at 2 AM is disturbing nearby dog pound.
Requests response to 7/16/2010 letter.
Claims wind turbine was not erected without special permit.
Orders cessation of windmill.
Ms. Eddy's letter has been placed in the public records. As soon as Town of Falmouth receives check, documents will be collected and copied.
Cannot live with sound from turbine.
Sends pictures of picket signs he posted stating that the sound of the turbines is "killing" him.

Acknowledgement of noise complaint & assurance that sound study is being done. Also requests clarification from Mr. Funfar on changes that called for his discrepancies between meeting with Heather Harper & his 9/16 email.
Complains about sound from turbine and its effect on his life/daily schedule.
Describes Post Traumatic Stress issues with wind turbine noise. Unsatisfied with sound study team.
Discrepancy because left his home during most of summer as per advice of doctors. Turbines are noisy shouldn't have been built.
Acknowledgement of Funfar's explanation. Assurance it would be forwarded to Town.
Noise complaint. Sound triggers PTSD, working with a councilor & will 'sit tight' but so far no good. Requests sound data.

Noise

		Noise Accepts Kate Barrett's offer to send CD with sound data. Offers to mail a CD of data.
9/28/2010 9/28/2010 6 PM 9/29/2010 6:15AM 9/27/2010		Falmouth Wind Turbine Noise Study Report/notice sent to DL Not part of legally represented townspeople, but taxpayer who feels he is negatively impacted by turbines & feels general information on website doesn't make him 'included' in discussion process. Wants to know what is 'going on with the turbine'? Noise complaint: sounded as if something was wrong w/turbine because sounded unusual. Referring to a Town Hall meeting he knew nothing about but would like to be involved. Requests more information from Ms. Cool to respond to 9/28/2010. Acknowledges complaint, looking into details. Requests more information from John Ford.
9/29/2010 pm- 10/1/2011 am		Explained the intent of meeting and reassurance that as a member of email distribution list he will get all public notices. Wind speeds too high, have to leave the house.
9/28/2010-10/1/2010		Noise complaint couldn't sleep all night because of loudness. Wonders if there will be an open house 10/2/2010 between 9 am - noon Acknowledgement of complaint & reassurance that 9/28 matters are being looked into. Email response to Mark Cool-not aware of any open house tomorrow 10/2/2011 Open house is an opportunity to look at turbines up close, doubts it will be helpful. Rumor is it is sponsored by Wareham boards members Open house is sponsored by Wareham, not Falmouth Noise complaint; general adverse affects of turbines. Asks that Mr. Funfar be more specific with the adverse health the turbines cause him because he is committed to exposing the truth about turbines
9/28/2010 6 PM 9/29/2010 6:15AM		Noise complaint, worse than 9/28 after turbines were 'fixed'. Follow up from 9/28-technicians were tending to repair on turbine last week. Recommends Neil Andersen contacts the BOS to reschedule an open house Continues to suffer, needs sleeping pills, ruined her 'dream house' & 'retirement plans'. Acknowledgement of complaint. Explains turbine speeds & sounds are largely based on weather conditions & many bad storms lately.
10/6/2010&10/7/201 0 PM	Wind I	Noise complaint, can't sleep-too loud.

10/7/2010 pm

Wind I & Webb Noise complaint, couldn't sleep, trees don't help mask noise.
Agrees with aforementioned noise complaints, whoever agreed to build turbines is a 'sinner' because they cause 'harm'.

Wind I & II Noise complaint re: Wind I; Wind II will be even worse because it's closer.
Agrees w/Brian Elder - the people who constructed turbines are 'sinners'.
Forwarded letter he sent to Matt Patrick re: wind power being a scam.
Call to Town to respond immediately for relief. Expressed disregard for HMMH report. Request for Town to adhere to attorney's temporary mitigation suggestions.
Resubmitted above request for immediate action.

Wind I Responds to Brian Elder re: noise complaint & possibility of re-adjusting turbines during night hrs.

Wind I Responds to Todd Drummey re: noise complaints & possibility of re-adjusting turbines during night hrs.

Wind I Responds to Annie Hart Cool re: noise complaints & the possibility of re-adjusting turbines during night hrs.

Responds to Barry Funfar's email
Rallying cry against Town's disregard for health & against 10/8/2010 town mitigation letter.
Response to Heather Harper's letter of 10/8/2010.
Call to rally against wind power receiving government support.

night time

Called to complain about the noise.
Response to request for information by Pat Cassidy @ capecod online.
Commenting about suicide.
Expressed detailed specific concern for safety, noise, & shadow flicker of Wind II

Wind II Requests for links to town financial plan & feasibility study.
Attached article re: hazards of wind turbine syndrome.
3 questions
Apologies for late response, request for clarification.

Wind 1 Noise complaint
Clarification of request

Webb Request for response to November 2010 complaint.
Response to Day Mount.

12/13 morning

Wind 1 Complaint

Webb & Wind 1 Can hear the noise from both
Responds to Robert Sager email 12/14.
Responding to Brent @ falmouthlocal.com.
Thanks Kate Barrett for response
Responds to request.
Mailed responses to Neil Anderson, Kathryn Elder, and Malcolm Donald.

recent days	Wind I & II	Response to Day Mount and Todd Drummey request for vendor information.
		Noise complaint
		Noise complaint
5-5:30 am	Wind I	Fwded from website of John Droz, jr. re: the 'politicization of science' & how that led to turbine mistake in Falmouth
		Town isn't doing anything, abutters weren't notified, turbines are expensive & dangerous, impact statement is flawed.
		Request item on selectmen's meeting agenda.
	Wind 1	Noise - loud
		Comment on mitigation suggestions.
	Wind II	Request for more info re: 12/17 response letter from Harper re: safety measures in erecting wind II
	Wind I	Wind I is too loud, must come down. Fearful of Wind II.
	Wind 1	Too loud
	Wind 1	Noise
	wind 1	Loud
all morning		Response to Malcolm Donald's public records request.
		Loud
		Noise complaint re: Wind I & fear of noise from Wind II.
1/18/2011 2:00 PM	Wind I & II	Question regarding output flow, total electrical usage & metering of Wind I & projections for Wind II.
		Noise complaint
	Wind I	invitation to Malcolm Donald and Barry Funfar to meet with staff.
		Wants financial information on turbine.
		Comment on GE refusal to bid on Falmouth and MWRA exception.
		Noise complaint (including forward from Wisconsin realtors re: turbines and 'green' projects)
	Wind I	Requests link to information for drawing plans of turbine be updated on website (they are set @May 2008)
	Wind I	Noise complaint
		Response to Malcolm Donald request 1/15.
	Wind I	Response to Mark Cook 1/18/11 request for website update.
		Jerry Potamis has been in touch w Mark Cool w info
	Wind I	Response to Kate Barratt 1/20/11--Being in contact w Mr. Potamis doesn't "diminish need for public access to info"
		Forwarded letter from Australian doctors warning of potential health risks of living near wind turbines.
		Response to Malcolm Donald questions from 1/15 - financials.
		Request for info for article on Falmouth's going green policy
		Reiterates request from 1/18/11
	Wind I	Noise complaint
		Follow up question to J. Potamis response email of 1/21/2011.
		More follow up to J. Potamis email of 1/21/2011.

	Wind I	Acknowledgement of complaint.
	Wind I	Acknowledgement of complaint.
	Wind I & II	Acknowledgement of complaint. Answers to above questions. Acknowledgement of complaint & reassurance they are working with consultants for best outcomes for all. Responses to comments of 1/18/2011-Eric Bibler about GE & bids. Responds to Drummey email question of 1/21/2011.
		Problems with Jerry Potamis's calculations re:diameter size Acknowledges & apologizes for error in calculation Follow up to Mark Cool 1/20/11 re: public access to info. Explains town has a right to withhold some info to protect itself from potential terrorism & questions the reason Mr. Cool needs specific turbine info.
	Wind I & II	Unsatisfied with answers given. Follow up questions. Response to Jerry Potamis 1/22/11. Explains his concern via link to YouTube video in RI. Wanted to clarify their phone call discussion.
	Wind I & II	Acknowledgement of questions.
	Wind I & II	Responds to invitation from Heather Harper on 1/14/2011. Comments on Mr. Donald's email of 1/24/2011. Noise complaint & aesthetic complaint-turbines ruin landscape view.
1/23/2011 & 1/25/2011	Wind I	Zoning Board is dragging out process without regard to abutters.
	Wind I & II	Response to Mark Cool 1/24/11. Requests Mark Cool not CC others in conversations. Re-explains town position Noise complaint Request email address for Falmouth Energy Committee.
1/23/2011 & 1/25/2011	Wind I	Acknowledgement of complaint. Response to Todd Drummey et al re:GE bid (initial email 1/21/11 re:diameter)
1/27/2011 8:50AM last night	Wind I & Webb	Noise complaint , high pulse, ringing in his ears.
	Wind I	Noise
	Wind I & II	Noise complaint re: Wind I & fear of noise from Wind II.
	Wind I & II	Acknowledgement of complaint. Acknowledgement of complaint. Acknowledged request.
2/1/2011 ~7PM	Wind I & Webb	Noise complaint & headache from pressure.
	Wind I	Noise complaint
	Wind I	Noise complaint
7/30/2011 & 7/31/2011	Wind I	Noise complaints - wants complaints logged 1 per night.
	Wind I	There is nothing being done to address noise complaints. Complaint re: response time between his complaint & acknowledgement.
2/1 7:44PM - 2/2 10:38 AM	Wind I	Noise complaint
	Wind I	Noise complaint
	Wind I	Response to Kate Barrett

	Wind I	Response that Mark Cool complaints are being logged & will be attended to. In emergencies call 911.
	Wind I	Source provided.
	Wind I	Acknowledgement of complaint.
	Wind I & Webb	Acknowledgement of complaint.
2/2/2011 midnight	Wind I	Noise complaint. Negative effects his anxieties. Especially bad in the snow.
	Wind I & II	Noise complaint. Anxiety caused by Wind I is enough that the fear of Wind II is 'near crippling'.
2/2/2011 PM & 'before bed at night'	Wind I & Webb	Noise complaint (sounded 'fierce')
	Wind I & Webb	Unclear of Kate Barrett's response
	Wind I & Webb	Reiterates Neil Andersen's concerns & expresses anger at the Town's lack of 'humanity'.
	Wind I	Acknowledgement of his complaint (specifically re: bad weather).
	Wind I	Acknowledgement of complaint.
	Wind I & Webb	Further response re: Vestas monitoring.
	Wind I & Webb	Acknowledgement of complaint. Reassurance that Town is interested in working with abutters to resolve.
2/4/2011 AM	Wind I	Noise complaint
	Wind I & Webb	Thanks Mark Cool.
	Wind I	Response to Mark Cool 2/4.
		Response to Ms. Worthington's noise complaint of 2/3/11.
		Informed her Jerry Potamis is addressing issue & will be in touch.
	Wind I & Webb	Forwarded letter from Australian doctors warning of the potential health risks of living near wind turbines.
daytime	Wind I & Webb	General complaint-turbines cause him anxiety.
	Wind I & Webb	Wants to know what not how Vestas monitors.
	Wind I & Webb	Further explanation re: Vestas monitoring.
		Acknowledged receipt of J. Worthington complaint, asked that future complaints be logged more specifically to the gmail address.
2/8/2011 PM		Noise complaint (wind gusts of at least 34 MPH noise of turbines louder)
2/8/2011 PM	Wind I	Question re: type of Wind I power control
2/9/2011 early AM		Noise complaint (WNW 33 MPH gusts to 44 MPH)
		Noise complaint (couldn't sleep)
		Response to CC Times article re: ZBA hearings. They should be making independent decision.
		Agrees w Julia Taylor 2/9/11 comment
		Agrees w Julia Taylor 2/9/11 comment
		Response to Mark Cool 2/9/11 question. Suggests working w neighbor's attorney rather than researching individually.
		Response to Jerry Potamis 2/9/11. Isn't asking questions for private mitigation just wants response.
		Response to Mark Cool 2/9/11. His initial email clearly states he is interested in mitigation.

		Response to Jerry Potamis 12/10/11. Found answer in email fwded by Neil Andersen. Thought town wanted to cooperate w abutters.
	Wind I	Source provided.
	Wind I	Acknowledgement of complaint. Request for the source of his info re: 660 kW turbine.
	Wind I	Email regarding meeting with Falmouth staff.
night time	Wind I	Acknowledgement
2/13/2011 - night	Wind I	Noise
2/14/2011 6:00 AM	Wind I	Noise
	Wind I	Noise complaint
	Wind I	Acknowledgement of complaint re: noise from Wind I.
		Comments on info recvd from MA DEP.
all day 2/14/2011	Wind I	Noise complaint
2/13/2011 PM & 2/14/2011 PM		Noise complaints - wants complaints logged 1 per night.
		Letter to community explaining he is not against wind energy just against the placement of the turbines. Does not approve
	Wind I & Webb	of sound study conducted by HMMH.
	Wind I & Webb	Addendum to letter of 2/15/2011.
		Follow up to Mark Cool's request. Invites all to visit his
	Wind I & Webb	residence to experience the turbine themselves.
	Wind I & II	Requests a 'review all implementation consequences'.
4:25 PM & 9:18 pm		Noise
		Can't sleep - noise
		Noise complaint follow up to Mark Cool email 2/19/2011
		Noise complaint follow up to Mark Cool email 2/19/2011.
	Webb	Complained about the WEBB turbine noise.
		Noise
	Webb	Noise complaint follow up to Mark Cool email 2/19/2011 -
		complaints about WEBB turbine.
		Follow up complaint to Chris Alves comments from 2/20/2011.
		Noise complaint follow up to Mark Cool email 2/19/2011 -
2/19/11-2/20/11	Wind I/Webb	complaint for both Wind I and WEBB.
	Wind I	Noise sounds like that of a 'jet engine' can't sleep.
		Follow up to Mark Cool's email of 2/19/2011 - agreeing.
Eve 2/18/2011 & 2/19/2011	Wind I	Noise
all day 2/21/2011		Noise is 'unbearable' wants to know if turbines are 'running faster'.
		Acknowledged complaint, suggested future complaints be more specific. Added Reichwein to general distribution.
		Attached copy of 'interim measures'.
		Unsatisfied
	Wind I	Acknowledges receipt of Day Mount email.
		Responds to Mark Cool's email of 2/19/2011 and acknowledges emails by Mark & Annie Cool, Chris Alves, Sue Hobart, Dick Nugent and Neil Andersen.
		Acknowledged complaint, attached copy of 'interim measures'.
24/7	Webb	Noise

		Wind speed recording Follow up question re: wind speed recording Response to Dave Kent email. Response
	Wind I	Happy turned off Wind I 2/25/2011. Information on turbines and noise. Letter to BOH. Wants noise correlation data.
afternoon	Webb	Acknowledges receipt of Hobart email. Turbine noise
	Webb	Noise Turbine noise
afternoon	Wind I	Letter re: noise.
		Response to Mr. Murphy and Mr. Elder's email of 3/2/2011. Clarification of Heather Harper's 3/2/2011 email.
		Email to Mark Cool about Wind 1 - wind speed and shutdown. Responds to Mark Cool's add'l question of 3/2/2011. Comment about emails and law. Wants to know who to complain to about Webb turbine. Notifies Ms. Hobart that WEBB turbine is not town owned - complaint noted. Comment - original email from Mark Cool. Response to Ms. Hobart. Pleased with the reduced limits. Requests financial information on Wind 1 - WGBH. Response to Sean Corcoran's request of 3/8/2011.
		Provides add'l information for Sean Corcoran's 3/8 request.
		Started a Facebook account for Falmouth Turbine Neighbors. Comment to Sue Hobart's 3/18 email. Pleased with the limits.
	Wind I Wind I	
		Wanted to have his comments to the Cape Cod Commission put into the record. gmail account copied on email about flyering neighbors. Upon return to home-very loud. Wants to know when Wind II will be running. Response to Jon Chesto email of 3/19/2011. Letter notifying the Town that he has filed civil suit. Additional questions about the turbines. Email to Megan Amsler about Mark Cool's email of 3/14/2011 requesting clarification from Energy Committee. Response to Jon Chesto's additional questions from 3/21/2011.
Noon 3/17/2011	Wind I Wind II	
		Requests her property be added to any sound study on turbines as she hears noise loudly
	Wind I	

		Thanks for prompt response asks about lawsuit and who can comment for town. Response to 3/22/2011 email about comments from Jon Chesto. Response to Jon Chesto's request about comments. Follow up to Kate Barrett's response re: the Gmail acct. will use for future complaints but hadn't registered a complaint just a request. Follow up to Linda Ohkagawa 3/23/11. fwded her info to project manager. requests source for wind speed and direction at the wastewater treatment facility
3/27/2011 3 PM	Wind I	Noise complaint. (also notes anxiety about Wind II)

5/1/2011 6:30PM	Wind I	Noise after 8PM was unbearable
5/5/2011 2:30AM	Wind I	Noise complaint
	Wind I	Noise complaint
		Assured Mr. Funfar that all emails are logged & explained the auto response
5/5/2011 9AM, 10AM, 11:40AM, 12:30AM	Wind I	Noise complaint
5/9/2011 "24 hrs a day"	Wind I	Noise complaint
5/9/2011-5/11/2011	Wind I	Suffering from headaches & vertigo like nausea 3 times in 3 days
9:30PM-11:50PM	WEBB	Auto response is unhelpful
		Noise complaint
~9:00PM--~11:00PM	Unspecified	Noise complaint suffered headaches (3 on a scale of 1 - 5) wind NNE, sustained at 19mph, gusts 29mph, peak gust 39 mph
		Complaint re: auto response - 911 is unresponsive to their complaints, suggestion to call them should be removed from auto response
5/12/2011 20:00	WEBB	Noise complaint
5/10/11-5/13/11	Wind I	Noise complaint (north wind blowing 25-40kts creates thumping noise waking him up in the middle of the night)
6:00PM-6:30PM	WEBB	Wind I was turned on and off several times creating a loud disruptive noise that disturbed his gardening.
9:15PM	Wind I	Noise complaint - stress inducing
	WEBB	Happy that WEBB was turned off for 2 days-helped her to relax
	general	responding to Sue Hobart's comment of 5/14/2011, saying what the Town is doing is criminal
	general	agreeing with Annie Hart Cool's comment of 5/14/2011 Request for copy of BID documents. Is town admin in Jamestown RI will be soliciting for turbine.
11PM-all night	Wind I	noise complaint. Sounded like she was sleeping beside someone 'breathing w a respirator' all night.
5/30/2011 evening	Wind I	Noise complaint, sound makes him anxious
5/31/2011 9-10PM	Wind I	Noise complaint
6/3/2012 6:20 AM	Wind I	Noise complaint
6/3/2011 11:30 PM	Wind I	Noise Complaint
		Questions agenda of those complaining about noise from Wind I. States that of all the turbines on the Cape, this turbine is farthest away from abutters but they complain the most. Says he's been to visit Blacksmith Shop Rd 3 times but never heard turbine noise.
6/4/2011 3:30 PM	Wind I	Noise Complaint
6/4/2012 12:45 AM	Wind I	Noise complaint

"4:50PM TO 6:50 PM AND ON" 6/5/2011 11:55 PM	Wind I	Noise complaint
	Wind I	Noise complaint Suggests the MTC acted as sales agent to sell off the turbines and rid themselves of the cost & embarrassment & financed the sound studies & general contracting w/o concern for safety. Suggests selling turbines ASAP before Falmouth incurs further damage- financial & audible Fwded slideshow from 6/6 public meeting re:shadow flicker & ice throw for website
6/9/2011 3:45PM-7PM	Wind I	Fwded William Griswold's letter to editor from 6/3/2011
	Wind I	Noise complaint. Also angry @ Megan Amsler for incorrectly comparing Wind I to the turbine by Mass Maritime. He says the turbines are not alike and affect diff populations. Also wants to know what the Town's evacuation route is should there be a runaway condition or fire. Fwded articles from around the world regarding the shutting down of turbines. Felt public meeting of 6/6 was overrun by abutter complaints. Didn't give opportunity for turbine supporters to comment. Town needs to recognize there are many Falmouth residents that do support the turbines Fwds article that questions Nina Pierpont's research on the ill effects of wind farms.
	Wind I	Response to Mr. Funfar's email 6/12 re: Megan Amsler's comment. Amsler's comments were about MMR turbine NOT MMA as understood by Funfar. Informed DL that BOH comment form, MassDEP/MDPH request for input and June 6 BOS meeting materials are posted on website The shadow flicker & safety presentation doesn't work on website. Fwded new link to be uploaded.
	Wind I & Webb	Response to Malcolm Donald's 6/13 email re the shadow flicker presentation. Uploaded corrected version onto website Has logged complaints all last year refuses to go through another year of logging complaints Town only cares about money. Almost lost his wife to Wind I last year. Sue Hobart claims she can't refinance her home because its toxic from the turbines
	Wind II	Follow up to Neil Andersen's 6/14 email re:town's sole concern for money. Adds that the only thing stopping her from suicide are her dogs. Responds to auto reply with an obscenity Announced Nina Pierpont's lecture on Wind Turbine Syndrome. Hopes to see more public officials in attendance than were in attendance @ her last lecture. Wanted status update on Wind II's construction

	Wind II	<p>Response to L. Parkinson's question of 6/14/2011. Turbine started construction Feb 2010, is 93%complete. Expected to complete 3rd quarter of 2011.</p> <p>Thanks Kate for updates to website.</p>
	Wind I, II & WE	<p>Effects of turbines are devastating and can lead to suicide. Acknowledged that Wind I & II are shut at the moment but wondered about whether he could register a complaint for WEBB which he hears from the industrial park</p>
6/16/2011 5:50PM - 8:30PM	Wind I	Noise complaint
6/18/2011 6:45 PM-9:10PM	Wind I	Noise complaint
		<p>Announced lecture on the impact of wind turbines on human health by Lilli Green & Preston Ribnick. Taking place on 6/21/2011 @7pm</p> <p>MassDEP/MDPH comment period extended to July 22, 2011 (email to DL)</p>
	Wind I	<p>Wind I is bothersome every day. Attached notes from an Australian friend suffering from similar turbine issue</p> <p>Provided Malcolm Donald w contact info he requested for Susan Innis</p>
	Wind I & II	<p>Thanks Kate. requests contact info for additional 5 people</p> <p>Wondered about power loss and need for loud generator.</p> <p>Wondered if it was connected to Wind I or whether Wind II was connected</p> <p>Provided Malcolm Donald w contact info requested</p> <p>Thanks Kate</p>
	Wind I & II	<p>Response to Funfar 6/22 question. There was a power line failure which is independent for Wind I & II. Should be fixed today</p> <p>Re Jerry's response of 6/23: Understands there are issues w WWTP. But the generator used in the interim is too loud/disruptive</p> <p>Forwarded link to Australian senate hearing on subject of Wind Farms.</p>
		<p>Forwarded link to John Terry's video of wind turbine sounds</p>
		<p>Reviews minutes from 6/10/08 meeting that suggest the plans for permitting went ahead w/o ZBA involvement. Seems public that wanted a debate weren't involved at the get go it may be too late for them now anyway because ZBA decided not to over turn "accessory use decision"</p> <p>Forwarded link from Sarah Laurie re Australian Waubra foundation's ill effects of turbines.</p> <p>Handwritten note hand delivered to Board of Selectmen. They cannot live w/in 1320 ft. of turbine and ask that it be taken down or that the town helps them to move</p>

6/30/2011 4:20 AM	Woods Hole RC	Fwd of letter to WHRC re: turbines create strobe light effect on his home. Would like to meet w someone to discuss situation. Attached letter from 5/27/2011 in which he mentions difficulties in selling his property due to turbines
	Wind I	Noise complaint Fwded outline of Australian turbine issues as reported by Dr. Susan Laurie
6/30/2012 10:45 PM	Wind I	Noise complaint. The lights and sounds make him feel he lives on an airport and exasperate his PTSD
		Lives on Blacksmithshop Rd, isn't very bothered by wind noises because sleeps in basement, but when visitors stay upstairs they all complain about noise. Also is disturbed by flashing lights. Supports wind energy but fears Cape Cod Aggregate will install 6-9 more turbines.
7/3 11PM-7/4 1:45AM, 7PM. 7/4 2PM	Wind I	Noise complaint. Stress levels increased due to turbines- is 'ready to check into hospital over anxiety & depression'. Fwded same complaint later on in the day
	Wind I	Wonders if it's possible to replace turbines all together. Is concerned Town isn't doing enough for citizens troubled by thumping sounds.
7/6/2011 afternoon 7/6/2011 4 PM & 9:30PM 6:15AM-7AM		lodges complaint and fwds lists medical conditions Waubra identifies as results of living in close proximity to turbines.
		replies to Barry Funfar's email on 7/5 listing medical conditions. Inserts that these ailments are rampant near the turbines in Falmouth
		Fwds a petition from Germany against turbines
		Agenda for July 11, 2011 Board of Selectmen meeting (email to DL)
	Wind I	Fwded study from Beacon Hill Institute re: energy costs.
	Wind I	Noise complaint
	Wind I	Noise complaint
	Wind I	Noise complaint
	Wind I & II	The sight of both turbines & the prospect of hearing them cause him high blood pressure
	WEBB	Wants to speak at 7/11/11 meeting about WEBB & similarities to Wind I.
	Wind I & Webb	Wants to know if there will be time limits given to the abutters speaking times at 7/11 meeting.
		Everyone will get 3 mins. (same time given @ June 6 meeting)
	Wind I	Note Location of July 11, 2011 Board of Selectmen meeting (email to DL)
		Went to Blacksmithshop rd & called the turbine noise 'horrendous'. Says noise from Webb turbine by his home is equally awful. Turbines should not be placed near residential neighborhoods
	Wind I	Sent photos of effigial bloodied doll affixed to town turbine sign

	Forwarded cases of Europeans fighting against turbine noise Forwarded email from Eric Bibler. Skeptical look at W&S
Wind I & II	Is a real estate broker & finds selling homes on Blacksmith Shop Rd impossible due to sight and noise of turbines. Suggests the only feasible solution is to dismantle turbines they cause notoriety & cost too much. Simply turning them off during certain periods isn't a viable solution. Response to R. Nugent's email of 7/12. Added him to distribution list and advised him to use Gmail account for further correspondence. Response to 7/11 town hall meeting. Lists reasons that turbines need to be relocated. They have caused abutters to suffer and abutters shouldn't be forced to move out of their homes since they preceded the turbines
Wind I & II	Agrees w Barry Funfar's response to 7/11 town hall meeting. Agrees there should be another sound study before Wind II goes online but must tell abutters in advance so they can leave. Final decision must be to move the turbines or make Town help abutters move.
Wind I & II	Wants to know how to view mitigation options discussed on 7/11 Response to Barry & Neil's emails for 7/12. Assures them many townspeople care about their health but leadership cares more about money. Trust some selectmen are moral enough and solution will end well.
Wind I & II	Response to Lin Whitehead's email 7/13. Thanks her. Forwarded article about Chinese moving away from turbine farms because they are fragile and have safety issues. (author states this shift is temporary)
7/14/2011 afternoon, 7/15/2011 early Wind I	Noise complaint Fwded link to article. Due to security concerns didn't click open link.
Wind I	Thanks selectmen for 2 hearings and reiterates suggestion that selectmen come to area of abutters to hear/witness turbines as a group. Thanks Barry Funfar for sending article 7/18/11. Hopes it will be helpful in stopping turbines. Forwarded article by Carl V. Phillips re: the health effects of turbines. Response to John Ford request 7/12. info he wants is on town website. Thanks Kate for response 7/20. Informs distribution list that materials from 7/11/2011 meeting are on Town website. Also live footage of meetings of 7/11 & 6/6 are up. Noise complaint. Increased anxiety & blood pressure. Town shows no interest in taking turbines down, it is financially irresponsible.
7/20/2011 consistently eve & night. 7 Wind I	

7/25/2011 Night - 7/26/2011 morning Wind I & II

Abutters rely on flawed theories. Attached Canadian court decision that rejects Dr. Nissenbaum's theory that turbines cause poor health.

Fwded materials & presented info from 7/11 meeting Noise complaint. Also noticed Wind II had no lights which he believes is a violation of FAA rules.

Wants to know who made decision to spend \$50,000 on turbines. Suggests the turbines be sold to Federal gov. They are too expensive for the town.

Wind I & II

Wind I, II & WE Noise & visual complaint. Turbines cause him anxiety.

8/1/2011 11:30AM-12:30PM & 5PM. Wind I & II

Forwarded article NASA and global warming. Didn't open link.

Forwarded article from Robert Bryce (didn't open link)

Noise is inaudible from Blacksmith shop road. Cites contradictory statements from Barry Funfar regarding his stance against turbines.

Noise complaint. Also commented on need for transparency in assessing safety concerns w/ turbines. As abutters would like to be in touch w/ contractors.

The fact that Chris Senie-abutter lawyer- is being denied a chance to speak at Neil Andersen SJ hearing shows Town administration is "afraid of the truth." Should take down turbines and get this all over with. Also notes that he has seen 15 wind farms on his trip across the US and none of them are w/in 2 miles of any towns

Fwd: Hull Municipal Light Board Minutes

Public records request for meeting notification

Comment following joint PB/BOS meeting stating several issues and concerns about Town process and turbines in general. Reiterated request for the Town to remove the turbines.

Empathizes with abutters, but they knew when they bought their properties that they were near town property and should not have expected control over its use. Supports turbines and concerned about losing federal money and costs to taxpayers for further studies or taking them down.

Comments following BOS meeting 8/29/11. unsatisfied by panel of 'experts' wants turbines dismantled

1)Called and emailed Heather Harper to comment about the noise being like a "jet engine". 2)Requested that their property be included in a sound study for wind II because they are ~1225 ft. from the turbine. Listed other mitigation options & comments.

Wind II

12:45 AM

Wind I

Noise complaint. Need to shut down turbine.

Re article in Falmouth Enterprise 9/2/11. Report from Health Board (as reported by article) was inaccurate-it didn't include his logged complaints.

Re: article in Falmouth Enterprise. The system of logging complaints is flawed. It accentuates the anxiety produced by the turbines. BOH & town officials are uncommunicative, would like a response from BOH.

9/6/2011 1:30 AM

Wind I

Wind I has increased his blood pressure. The fact that he hasn't made the most amount of complaints doesn't mean he isn't suffering.

Doesn't understand why Falmouth should waste any more money on a health effects study of turbines. Sufficient info exists on internet.

Response to Lin Whitehead 9/5/11.

Includes link to Survey results of Human Health & turbines
Physical alterations that the town agrees to make to abutter homes won't suffice because the problem is outside. Cannot open windows or go to into the yard.

Won't be able to attend next meeting but wanted to write in his input. Wind I gives him anxiety & worsens his AFIB.

Noise complaint. Lists symptoms of turbines & notes his family & neighbors suffer from all mentioned.

Writing from Ohio, she has friends in Falmouth & reads about the turbines in the news. Falmouth is a wasteland because of turbines & its disregard for resident health.

If Falmouth cared about its residents it would take their health concerns seriously & turn off the turbines. It owes its citizens an explanation. Mr. Biber states he is not a Falmouth resident.

Response to Sue Hobart re: release of BOH database info on personal health matters.

Online complaint forms are stress inducing & are not being logged. This sends his turbine induced anxiety into a tailspin.

Wind I II & Wet: Will not send.

Turbine noise stole peace & quiet. Will continue to fight greedy politicians who are wasting town money on more studies.

Wind I

Asks for MET & NOTUS data from Wind I study done on April 17, 18, &19.

Wind I

Response to Drummey 9/8 re: MET tower data. Cannot provide info due to replacement of main drive. Also don't have access to NOTUS MET tower data.

Wind I

Thanks Jerry for response. Will contact him for data in future.

Wind I

Informs Drummey That info is a work in progress.

Offers his perspective in support of abutter complaints. Is not a resident of Falmouth.

No one should live within 1.25 miles of turbine for health reasons but there are 495 homes valued at over \$400,000 surrounding the turbine. The turbine must move. Can't log complaints every time bothered.

Letter to Stephen Mahar(from the office of Senate President Therese Murray) re: Wind Siting Reform Act. Notes on how to proceed responsibly re: turbines. Should have better communication.

Wind I

Experienced shadow flicker in the AM. Noise in the afternoon.

Wind I

Experienced shadow flicker for a full hour in the AM.

	<p>Forwarded 2 emailed including links to Dr. Pierpont interview. Did not open because they were attachments. Watched video of ill effects of turbines. Expressed regret that citizens must suffer from turbines. Town of Falmouth mismanages money. Sent article from Dr. Sarah Laurie on the health risks brought about by turbines. Quotes article (cite unknown) stating that data suggests health risks for people within 2KM of turbines. Suggests turbines should be minimized at night. Article is not specifically about Falmouth, Funfar suggests a similarity. Announcement of WESRA hearing @ Cape Cod Community College. Suggests it is an opportunity to save MA from being overrun by wind turbines. Forwarded letter from Wind Wise urging state agencies not to adopt WESRA - an act which would take away local control of wind turbine placement. Forwarded article on windmill fossil fuel consumption & CO2 emission</p>
	<p>Wonders why North America doesn't realize the ill effects of turbines on health where they do in Europe. Fwds article on Canadian position on possible ill effects of turbines on health. Fwded article in Falmouth Enterprise interview w Sue Hobart on ills of turbines Notes that the letters submitted by his wife & daughter weren't included in Falmouth Enterprise article Fwd case from South Australia re: ill effects of turbines. Anticipating upcoming town meeting. Wonders if anyone he Cced is having difficulty getting emails sent through to town officials Announces open house at Neil Andersen's home to listen to turbine noise. Attached link to MASSDEP website; did not click open Comments that HMMH's sound study is ludicrous; sound proofing will not help. Included similar comments from other residents. Wind II will begin operating early Dec. Will run full capacity in first month, in second month will shut if wind over 23mph. Tracking for Wind II will be kept in gmail account. Wind I will only operate for testing. Thanks Kate for info (re:11/21/2011)</p>
Wind I & II Wind I&II	
	<p>Suggests Kate adopt something like the BOH website survey to tally turbine issues rather than gmail. (re: Kate 11/21/2011) Wants 24hr phone line to be set up to accept emergency calls. Not everyone uses email especially in an emergency. Expects phone line will be set up before Wind II is up and running. (re:Kate 11/21/2011)</p>
Wind II	

Shared info from Fairhaven wind project. Fairhaven is using same non-permit process as Falmouth and will put abutters w/in 900Ft. of turbines includes link to "Too Close" video.

Responds to Heather Harper's request that he retract his incorrect statements about discussions with Maurice Rowe of the Craggy Ridge Homeowner's Association regarding a "revenue sharing plan" that could split abutters
Included link re: bad health impacts of turbines.

Response to Jed Goldstone's suggestion of using BOH survey rather than Gmail to collect data re Wind II. Explains Gmail is a central location for people to submit comments, having multiple locations is confusing & doesn't want to give impression that info being gathered is scientific.
Response to Kate Barrett that the TM's plan is fine and suggests an auto-reply on Gmail account.
Requests # for Town Manager & wants to know if commenters must submit their names in giving feedback (doesn't want people to be afraid of being exposed in newspapers)
Email appears to be from a different address and included a link. Did not visit link due to security concerns.

--	--	--	--	--

Fwds letter from Vestas re: low frequency noise regulations

Fwds link to sound study done in Falmouth to prove or deny the presence of infrasonic and low frequency noise emissions

Thanks Barry for fwding letter from Vestas. Attaches article from Sunday Times confirming health hazards of turbines
Thanks Barry & Barbara for sending info. Agrees and claims 'Green Agenda' sacrifices neighborhoods

Town received copy of The Wind Energy Facility Mitigation Alternatives Analysis. Copy will be available @ library for review or on town website. Board will meet w concerned parties under neutral supervision. Comments will be accepted through 1/4/2012, anticipate selected firm by 1/9/2012. 20-40 interviews will be conducted throughout Jan.
Fwded her response from 12/18 under a new subject line—"RE: LETTER FROM VESTAS TO DENMARK'S MINISTER OF ENVIRONMENT"

Wind II

Wants to be interviewed in January; asks how selection process is handled
Will fwd Kristin Moritz's request to town for review & response; informs her selection process will likely start after facilitator is chosen

Wind II

Wind II

Wants to be added to list of interviewees

1:30AM 3:30AM

Wind II	Will fwd Christina Rawley's request to town; informs her selection process will likely start after facilitator is chosen Looking for 2004 "Environmental Impact Statement" & the KEMA April 19, 2005 "Site Screening Report"-can't find info on website
Wind II	Thanks Kate for passing on her request Response to Funfar 12/21 question: The KEMA studies are on the Energy Committee's page of the Town's website. Unfamiliar w Site Screening Report, forwarded to Jerry Potamis Response to Funfar 12/21 question not familiar with a 2004 EIS and that date predates the KEMA report which was not adopted by the Town. Advises follow up with MEMA or provide more context. Correction posted to 12/20/2011 email re:CEC posting on selectmen's website
	Forwarded email on benefits of turbines/renewable energy Turbines are a health hazard and should be removed W&S mitigation study is useless because low frequency pulses are the problem with the turbines; only solution is removal Forwarded email he sent to Town Hall re: hazards of turbines & call for their removal Forwarded her letter to Falmouth Enterprise advising town not to collaborate with CEC
Wind II	30 day testing period for Wind II begins 1/10/12. Operating Wind II will have negative effects on citizens;
Wind II	running it is a "criminal act"
Wind II	Agrees with Andersen 1/9/12
Wind II	Agrees with Andersen 1/9/12
	Attached letter from citizen complaining of ill health affects of turbines, wonders why town officials are not paying attention
Wind II	Wants phone number to register complaints & wonders how phoned in complaints will be blended with gmail complaints Response to Ohkagawa 1/11/12. Info will be provided at the beginning of test period
Wind II	Would like to be interviewed for consensus study if it isn't too late because they live on Blacksmith Shop Rd w/in 1/4mi of the turbine would like to be interviewed for consensus study
Wind I	Kept awake all night by thumping of Wind I Would like update on Wind I & II--why testing hasn't begun for Wind II, why DEP hasn't been operational on Wind I & why there is a large crane by Wind I
Wind I & II	Response to K Elder 2/13/12. Nstar test scheduled for 2/14 11AM, hope to be running Wind II by 2/16. Delay due to backorder of electrical equipment
Wind II	

	Wind I	Thanks Suso for response, asks if he knows about large crane by Wind I
	Wind I	Response to K Elder 2/13/12. Crane is doing repair work on Wind I, cost is covered by manufacturer warranty
	Wind II	Pre-test on Wind II scheduled for 2/14/12. Town will notify when 30 day test period begins; Will operate at wind speeds of less than 10 meters per second
	Wind I	Should use crane to remove Wind I; Mitigation option is to remove turbine, therefore this is no point in repairing & using more money to bring a second crane a second time
	Wind I	Response to K Elder 2/13/12 re: crane. Crane is fixing generator.
8:13 AM to 8:55 AM	Wind II	Has not seen any notification re: Wind II testing period as promised. Also has experienced shadow flicker @ 821 West Falmouth Highway from 8:13 to 8:55 AM.
	Wind I	Thought abutters would be kept informed-not happening; Wind I was on all night-disruptive
	Wind I & II	Pre-test on Wind II completed. 30 day period begins today. Comments should be sent to gmail account & are subject to public record. Wind I is on for a 48 period for temporary repairs.
	Wind I	were not notified wind I would be running
	Wind II	His ears have been ringing all night
	Wind I	Wants to know dashboard address for Wind II
	Wind I	Noise from Wind I is disruptive and has turned his property into an "industrial zone"
	Wind I & II	Has visited turbines in all weather conditions and doesn't find them offensive. Hopes town can find a way to keep turbines & work with abutters because wind energy will save town money
	Wind I & II	Happy to see turbines running
	Wind I & II	So far can hear Wind II while outside. Imagines in the summer when both I & II or just one of the two are running, that the noise will be intolerable. Reports he suspects the north wind to be the worst
1:32 AM, 3:00 AM & just before 7Am	Wind II	His ears are ringing
	Wind II	is experiencing "Tinnitus Ear Pressure ear pain"
	Wind II	Did not hear "audible noise" but Wife woke up several times & checked "blinds"- "unusual behavior", wasn't aware if turbines were on until later when she checked power dash for wind II & noted the peak times corresponded to those times
2/16/2012 AM	Wind II	she woke up
2/16/2012 8:15AM - 8:55AM	Wind II	Outside the front door, heard rhythmic repetitive "hum" audible over noisy traffic on Route 28. "Otis NOAA wind report: N 5."
2/16/2012 9:30PM	Wind II	Shadow flicker across her yard
2/17/2012 4:00AM	Wind II	Sharp pain in right ear; stuffiness in both ears outside and inside the house
	Wind II	He & his wife were awakened at 4:00AM by turbine. Wife's bedroom faces turbines, husband's does not.

2/18/2012 3:30AM	Wind II	Was awakened by turbine at 3:30AM; assumes there was shadow flicker because it was a sunny day, but was unable to check
2/18/2012 9:30AM	Wind II	Husband notes engine noise and whooshing outside, louder than traffic
2/18/2012 10:30AM	Wind II	Husband hears noise through closed windows
2/19/2012 7AM	Wind II	Husband hears noise like airplane
2/19/2012 8:15AM-9:00AM	Wind II	Husband observes shadow flicker all over the back yard.
	Wind II	Happy to see Wind II running
2/19/2012 2:30PM & 4:40PM	Wind II	Wife was away 2 days was in good health, gets clogged ears upon return when turbine was running at Otis NOAA: E 8
2/20/2012 3:08AM & 4:32AM	Wind II	Wife woke up at 3:08 & 4:32 AM because of whooshing sound -even though windows were closed
2/20/2012 7AM	Wind II	Wife woke 7:30 AM with ear pressure and pain. Vibration in the window blind and cord tapping rhythmically
2/20/2012 10:26AM	Wind II	Couple hear noise like airplane engine from their porch.
2/20/2012 2PM	Wind II	Sound is louder than traffic
2/20/2012 3:50PM	Wind II	Wife's ears are popping from noise
2/21/2012 4:34AM & 6:31AM	Wind II	Wife's ears continue popping from noise, are painful
2/21/2012 8AM-8:40AM	Wind II	Wife awakened at 4:34 AM (NW 3) and 6:31 AM (N 3); normally a very sound sleeper
2/21/2012 8:30PM, 9PM, 11:15PM	Wind II	Shadow flicker in yard & on neighbors house
12:30 PM	Wind I & II	Wife got headache and slight nausea, blinds down, windows closed. Noise louder at 11:15PM
	Wind I & II	Loud thumping noise
	Wind I & II	1)Wind I & II stopped running midday-wonders if that is because of power outage. 2)Power dash site shows Wind 2 as regularly producing over it's rated capacity of 1.6 Megawatts - asks for explanation
	Wind I & II	Resent complaint from 2/22/2012 because did not get reply (Sent @12:10 AM)
	Wind I & II	Resent complaint from 2/22/2012 because did not get reply (sent @8:25AM)
	Wind I & II	Wind II off, Wind I running, thought Wind I was just undergoing temporary testing, asks to be kept informed of schedule
	Wind I & II	Still has not received response from 2/22/2012 complaint (sent @2PM)
	Wind I & II	Response to K Elder 2/23/2012: 1)There was an NSTAR power outage so turbines were shut off. 2)Wind I is scheduled to be turned on around 845am 2/23/2012 & Wind II should be online later. 3)the power dash page is providing misinformation re Wind II output and is being investigated

		Response to phone call w Neil Andersen. 1)Wind 2 is going to operate for 60 days and that Wind 1 would operate as needed to insure proper operations and sound testing by the DEP. 2)recent unanticipated operational issues in conjunction with low wind speed resulted in intermittent and unpredictable operation of Wind 1. 3) Town never intended to maintain a immediate notification system for all residents. 4) Wind 1 can operate at a Wind speed greater than 10ms to facilitate the DEP sound testing
	Wind I & II	Log complaint
	south west wind Wind I	Sounds like airplane whooshing-louder than traffic. Wonders why Wind I is on
2/23/2012 2:30 PM	Otis NOAA: SW Wind I	Noise complaint - sounded like loud engine/appliance- assumes it is Wind II
2/21/2012 middle of night	Wind II	Commented on Sharon Walton's email of 2/23
2/21/2012 middle of night	Wind II	Has sent 4 emails regarding his complaint of 2/22/2012 & wonders why he has not received a response
2/22/2012 12:30 PM	Wind I & II	Noise is increasingly loud-like airplane
3:00 PM & 9:30PM	Otis NOAA: NW Wind I & II	Still has not received response from 2/22/2012 complaint (sent @8:31AM)
2/22/2012 12:30 PM	Wind I & II	suffering from Tinnitus (sent @2:14PM)
	Wind II	suffering from Tinnitus. no audible noise-level 2. Wind speed 10.
2/24/2012 4:13 PM		suffering from Tinnitus
2/24/2012 8:45 PM		Suffering from Tinnitus
2/24/2012 11:31 PM		Constant thumping pounded. Headache and anxiety -forced him to leave house.
2/23/2012 1:28PM -4PM	Wind I & II	Loud noise woke them
2/22/12 2:30 AM	Wind I	Noise woke her
	Windy	suffering from tinnitus; thumping but noise level low
2/25/2012 7:15 PM	Wind II	suffering from tinnitus; loud thumping; cranking all night
2/25/2012 11:18 PM	Wind II	Swishing sound; Ear Pressure; pillow vibrating.
2/26/2012 1:59	Windy	Through double paned window felt pressure waves coming from Wind II. (Wind I was off.)
2/25/2012 @ 6:25PM	Wind II	suffering from Tinnitus
2/27/2012 @ 10:19 F	Low winds	Shadow flicker across his windshield as he approached Otis. Very dangerous/blinding-town officials are culpable for injuries/accidents that will occur
2/27/2012 @ 8:45am	Wind II	Shadow flicker & constant disturbance from its repetitive nature make turbines unmanageable
		No warning that Wind I would be running; Last week HH left message there would be 48 hr. period for testing but nothing this week
2/27/2012 @3:40 PM	Wind I	No warning that Wind I would be running; requests the town/Jerry keep abutters informed
	Wind I	Heard rumble and thump in his house. no warning that the turbine would be on.
2/27/2012 8:59 PM	SW Wind	Awakened by the sound/pressure waves of Wind I & sound still audible at 6:30am inside his home
2/28/2012 4:51AM & 6:30 AM	Wind I	Noise from Wind I woke her
2/27/2012 night	Wind I	

2/28/2012 7:39	Wind II	constant whooshing noise Terrible light flicker in the AM (states that she doesn't think the word flicker is strong enough) feeling ill, anxious, with a resulting migraine headache. Makes part of her house-which faces the turbine-unlivable Woke @9AM confused and slightly dizzy-could not speak/function coherently. Had to spend day out of her house to recuperate
2/24/2012 Morning	Wind II	Husband hears noises sound like airplane
2/24/2012 2:30 PM, 6:30PM 8:30 PM	Wind II	Husband Hears loud noises, sometimes just loud, sometimes like airplane.
2/25/2012 10 AM 5PM 11:30 PM	Wind II	Husband notes Airplane noise. "Wind II off"
2/26/2012 9AM & 3 PM	Wind II	Shadow Flicker across yard
2/27/2012 8:00 AM	Wind II	popping and pain in both ears. Blades at right angles
2/27/2012 12:30 PM 2:52 PM	Wind II	Loud airplane noises
2/27/2012 7 PM 830 PM	Wind II	Vibration, rhythmic tapping of shade and cord. Audible whooshing through window; ears stuffy.
2/28/2012 7:34 AM	Wind II	Shadow flicker, airplane whooshing sound
2/28/2012 7:55 AM NW 21 G 25	Wind II	1:10 PM turned off; 2:50 PM back on: Airplane sound, whooshing over traffic. Ear pain and pressure
2/28/2012 1:10 PM & 2:50 PM	Wind II	Log complaint
2/29/2012 9:39 PM	Wind II	Thumping, Tinnitus Ear Pressure
north east/east	Wind I	Log complaint
3/1/2012 3AM	Stormy night	Repetitive loud banging sound. Giving him insomnia-not a pre-existing condition for him
3/1/2012 4:40 AM	Wind I	Log complaint
3/1/2012 7:33 AM Medium wind	Wind II	Tinnitus ear pressure, thumping
3/1/2012 4:50 AM	Wind I	Would like her property to be included in observation study
2/29/2012 11 PM 3/1/2012 6:30 AM	Wind I & II	Was awakened by Wind I; Heard that Jerry told neighbors that Vestas has control over Wind I-not town; Need to give advanced warning for testing periods
3/1/2012 8 PM Low winds	Wind II	Noise from Wind II & maybe I. Like jet engine
3/1/2012 3 AM; 3/3/2 Stormy		Suffering from Tinnitus
3/3/2012 3:10 PM Low winds	Wind II	Awakened by turbine noise two days in a row. Turbines don't belong
3/3/2012 11:22 PM Medium wind	Wind II	Suffering from Tinnitus
3/5/2012 7:31 AM Low winds	Wind II	Swish thump sound; suffering from Tinnitus
3/5/2012 5:28 AM & 8:45 AM	Wind II	Tinnitus, Shadow flicker; jet engine sounds
	Wind II	1)shadow flicker at 8:45 AM across car-dangerous.
	Wind II	2)awakened @ 5:28 AM from vibrations-noted Wind I is off-assumes it is low frequency vibrations from Wind II
	Wind II	Is hard of hearing but notes irritating whooshing sounds from turbines. Woke up with headaches which did not end until he left Falmouth. Mentions his wife-who is not hard of hearing-is not bothered by them.
	Wind II	Log complaint
3/6/2012 6:30 AM	Wind II	Isn't usually bothered by sound, though she finds turbines visually abhorrent; shadow flicker in her bedroom woke her at 6:30 AM- her doctor told her she needs to get more sleep.

3/6/2012 8:46 AM	Low winds	Wind II	Has been keeping track of noise and disturbances; was surprised to read in paper that there were few documented complaints, especially bet 2/29/2012-3/3/2012
3/6/2012 12:08 PM	Low winds	Wind II	Swish sound suffering from tinnitus. Suffering from tinnitus Happy to see turbines running; hopes town can collaborate w townspeople to keep them on. Heard grinding noise with pulses of sound-assumes it is from Wind II, Wind I was off; will be on vacation for 2 weeks so will not send in complaints
3/7/2012 1:10 PM	Medium wind south west wind	Wind II Wind I	Suffering from tinnitus Thumping sound in house
3/8/2012 11:12 AM	Medium wind	Wind II	Tinnitus, stress
3/8/2012	Windy		headache nausea-fell motion sick; wife is okay
3/8/2012 6:52 PM	Medium wind	Wind II	Tinnitus ear pressure Can see turbine from house - wonders if town followed code in building so close to property; neighbor told him there is shadow flicker in his yard (he has not spent much time there). This is the house he and his wife will retire to, will be very angry if town does not do the right thing & pay damages, especially to those whose health has suffered
3/9/2012 9:55 AM	Low winds	Wind II	Tinnitus
3/9/2012		Wind II	Loud all day
3/10/2012 6:20 P<	Low winds	Wind II	Ear Pressure
3/11/2012 3:32 PM	Low winds	Wind II	Tinnitus Supports turbines. Never experienced health hazards from Wind I, and so far none from II. Had shadow flicker for a brief period in the AM from Wind I but it was not a bother and wishes it would be turned on again. Hasn't experienced flicker from II. There is some dull noise from turbines, but can be tuned out like traffic noise on 28.
2/29/2012 3 PM		Wind II Wind II	headache (top of head) and ear pressure
2/29/2012 12 AM		Wind II	Loud engine whooshing sound-audible inside and outside
3/1/2012 4:30 AM, 7	Strong East win	Wind II	awakened several times during night Whooshing and engine noise audible inside although ears stuffed and popping
3/1/2012 8:00 AM		Wind II	Ear Pain
3/1/2012 11:00 AM		Wind II	Headache and queasiness; Blades at right angles; All evening ear pain, pressure and headache. Loud engine and whoosh.
3/1/2012 3:45 PM & evening		Wind II	
3/2/2012-3/5/2012		Wind II	Wife's ears are clogged from turbines; eventually clear when she leaves the house but when she returns they clog again
3/6/2012 8:12 AM		Wind II	Shadow Flicker Wind 2 off until 9:00AM. 11:20 AM Blades sideways. Loud engine and whooshing over traffic
3/7/2012 9 AM & 11:20 AM		Wind II	
3/8/2012 4 PM		Wind II	Loud noises heard inside & out; ears hurt -pressure building

3/8/2012 9 PM	Wind II	9:00 PM Wind II on (had been off @ 8 PM); very loud whooshing and thumping Reports hearing "northern most turbine" a few times from his driveway in the three weeks its been on-this feedback is in response to inquiry
3/15/2012 8:19 PM Medium wind	Wind II	Tinnitus ear pressure
3/18/2012 3:40 PM Medium wind	Wind II	"cyclic noise"
3/18/2012 11:39 PM Medium wind	Wind II	Swishing thumping noise
3/19/2012 8:08 AM Low winds	Wind II	Shadow Flicker, swishing noise
3/15/2012-3/20/2012	Wind II	Turbine has been very loud past 5 days
3/20/2012 9:29 AM Low winds	Wind II	Tinnitus
		Study should be done in summer when people have windows open and suffer more. Has been awakened many nights, does not know which turbine is loudest. Attached calendar of his own log of complaints. (did not open link.) DOES NOT WANT HIS NAME PART OF PUBLIC RECORD
3/20/2012 8:30 (does Medium wind	Wind I & II	Swish noises
3/21/2012 7:30 PM Medium wind	Wind II	Swish noises
	Wind I & II	Supports turbines. Wants them to run as planned Gives review of effects of Wind II since end of test period is approaching. Says Wind I & NOTUS are worse for him because he lives closer to them. Notes that Wind II is definitely audible but it is hard to determine precisely which sound comes from which turbine.
	Wind I & II	Tinnitus & shadow flicker
3/24/2012 12:19 AM & 5:16 AM Low winds	Wind II	Awakened by turbines twice Attached chart of her observations; is "nothing annoying to report"
	Wind II	Pulsing causes pressure to build up in his head. Left town for a few days, headache dissipated, when he returned, headache re-appeared. Realtors told him they don't want to show properties near turbines-is angry and wants town to make good on damage.
	Wind II	Noise complaint - whooshing sound Response to auto response; wants to make sure her complaints are being received, she and her husband logged three complaints against wind II - issue is mostly vibration causing "sea sick" feeling, not really noise.
	Wind II	Noise complaint.-makes it impossible to do yard work. Suffers from nausea and sleeplessness & wants turbines relocated.
3/25/2012 3:25 PM Low winds	Wind II	Tinnitus
3/9/2012 12:14 PM & 11:45 PM	Wind II	Loud all day even through closed window. Sounds like airplane. Not bad in evening until 11:45 PM
3/10/2012 8 AM 8:20AM & 10 AM - 1	Wind II	Loud whooshing through windows bet 8 - 8:20 AM; ear pressure; Stomach queasy; vibrations cause blind cord to tap.
3/10/2012 10:45 PM; 12:00 AM	Wind II	10:45 PM Moon flicker (full moon) ; 12:00 AM Ear pressure popping and pain

3/11/2012 9:00 AM; 11:00 AM; 11:30	Wind II	Blades at right angles. Ears stuffy, headache, hearing muted. Husband headache and dizzy. Whooshing inside even though ears plugged.
3/11/2012 1:07 PM	Wind II	Ears plugged, dizzy, nausea, pain. Blades sideways. Feel shakey/anxious
3/120/2012 11:28 AM 12:12 PM 2:2	Wind II	ear pressure/sharp pain
3/13/2012 3:41 AM-	Wind II	Wonders if wind changes and accompanying blade adjustments do something to pressure?-was awakened at 3:41AM when such wind shift occurred
3/13/2012 10 - 11 AM & 12:24 PM	Wind II	Ear pain, pressure, headache, queasy, dizzy, blades at right angles.
3/14/2012 12:20 AM	Wind II	Ear pain
3/14/2012 8:5 AM	Wind II	Stabbing ear pain in right ear, stuffiness coming on (can't see turbine (fog)
3/19/2012	Wind II	confused and inability to concentrate most of day; ears hurt
3/19/2012 12:00AM	Wind II	Left the house, felt better after an hour of being away; pain returned upon returning home.
3/20/2012	Wind II	Felt mentally sharper than usual when she woke up and the turbine is not moving
3/21/2012 AM	Wind II	nausea, dizziness, confusion and impaired concentration; ear pressure pain and stuffiness/popping.
3/21/2012 PM	Wind II	Fatigued. Could not reach normal levels while exercising; extra effort required and higher pulse rate at these lower levels). Exercise Instructor asked about change
3/23/2012	Wind II	Returned to exercise class after spending the nights before away from home & did well in class. Returned home and ear pressure ensued.
3/24/2012	Wind II	Woke with ear pressure, dizziness, lack of mental clarity; after leaving her house felt better.
3/24/2012 10 PM & 11:30 PM	Wind II	Whooshing outside over traffic; ear pressure/popping; headache, noticeable rhythmic stabbing pain in ear. .
3/25/2012 3:19 AM; 3:41 AM; 4:30 A	Win II	Awakened 5 times during the night. ear pressure and headache queasy.
3/25/2012 11:26 AM; 11:28 AM; 11:4	Wind II	Sharp pain in ear; Audible whooshing inside. Headache and Strong desire to leave home
3/26/2012 8:27 AM Low winds	Wind II	Tinnitus, shadow flicker
3/26/2012	Wind I	Intense pain/aches; sound everywhere
